

30 April 2018

Dear Sir/Madam

### **M1 Junction 13 to 16 Smart Motorway Programme**

Costain Galliford Try Joint Venture working on behalf of Highways England, will be carrying out the Smart Motorway scheme on the M1 between junctions 13 to 16.

The project will help relieve congestion by converting the hard shoulder to a running lane and smooth the flow of the traffic, improving safety and journey times.

We will be carrying out essential advance vegetation clearance prior to the start of the main construction works. These works will begin on the 07 May for approximately four weeks on the section of motorway adjacent. The work will require closing lanes 1 and 2 of the carriageway between Junctions 14 to north of Newport Pagnell Services from 9pm to 6am.

We will endeavour to complete the work as quickly as possible keeping noise and disruption to a minimum. However, we acknowledge some operations may cause noise, e.g. chainsaws and mulchers which must be operational to undertake these works.

Works are weather-dependant and may have to be cancelled at short notice; please check Traffic England ([www.trafficengland.co.uk](http://www.trafficengland.co.uk)) for current traffic conditions.

May we take this opportunity to thank you for your patience whilst these works are carried out. I hope this information is helpful and we apologise in advance for any inconvenience these essential works may cause.

If you have any additional questions or concerns, please contact Highways England Customer Contact Centre on 0300 123 5000 or [info@highwaysengland.co.uk](mailto:info@highwaysengland.co.uk).

Yours sincerely

Vanessa Adu
